Using Interreg South Baltic funds

for green technologies

Description of your idea

Bio-refinement South Baltic (BSB)

- Establishment of cross-border cluster for bio-refinement in South Baltic area,
- Development of cross-border educational programs delivered to green sector SMEs to foster their innovation capacity within the bio-refinement field,
- Increase the number of enterprises cooperating with research institutions.

Partners / associated organisations required

- We want to create a consortium based on the model of triple-helix:
 - Authorities
 - Companies
 - Research and education institutions
